

## Managing Trustee's Message on the occasion of "Teachers' Day"

*"Educating the mind without educating the heart is no education at all"*

Today on the birth anniversary of late Dr. Sarvapalli Radha Krishnan and in this Golden Jubilee year of the establishment of SICA Trust, I would like to share some thoughts. As I go back the memory lane to when I commenced my journey in the educational arena, I perceive that teaching was then confined only to explaining what was in the syllabi. At that time nobody could have imagined that the role of teacher would evolve from a mere provider of knowledge to that of a social change maker in over three decades.

Teachers' Day reminds us of the critical role teachers play in achieving inclusive, quality education for all. The New Education Policy has enabled us to impart blended curriculum for the 360-degree development of students.

Today the role of a teacher has become that of a mentor, inspirer, and a change maker. Good teachers are the reason why ordinary students dream to do extraordinary things. I feel gratified and proud to acknowledge that SICA Group of Institutions, during its glorious journey of half a centennial, has been able to be a consistent source such mentorship and pioneers to the society.

This great institution has been carrying forward the dedicated mission of education for the past fifty years with a vowed aim of forming a strong identity and infusion of a justifiable pride in the rich cultural legacy of India.

I congratulate the entire SICA family on this momentous occasion. On behalf of SICA Trust, I extend best wishes to the Principal and Teachers!!

May this institution continue to be a trailblazer in the pursuit of excellence !  
May it grow in strength to emerge as an unparalleled temple of learning !!
